Statement of intent

Collective Vision Trust, and all of its schools, is committed to maintaining the confidentiality of its information and ensuring that all records within the school are only accessible by the appropriate individuals. In line with the requirements of the UK GDPR, the trust schools also have a responsibility to ensure that all records are only kept for as long as is necessary to fulfil the purpose(s) for which they were intended.

We have created this policy to outline how records are stored, accessed, monitored, retained and disposed of, in order to meet the school's statutory requirements.

This document complies with the requirements set out in the UK GDPR and Data Protection Act 2018..

1. Legal framework

This policy has due regard to legislation including, but not limited to, the following:

- UK General Data Protection Regulation (GDPR)
- EU GDPR
- Freedom of Information Act 2000
- Limitation Act 1980 (as amended by the Limitation Amendment Act 1980)
- Data Protection Act 2018

This policy also has due regard to the following guidance:

- Information Records Management Society (2019) 'Information Management Toolkit for Schools'
- IRMS (2019) 'Academies Toolkit'
- DfE (2018) 'Data protection: a toolkit for schools'
- DfE (2023) 'Careers guidance and access for education and training providers'
- ESFA (2022) 'Record keeping and retention information for academies and academy trusts'

This policy will be implemented in accordance with the following school policies and procedures:

- Data Protection Policy
- Freedom of Information Policy
- Cyber-security Policy

2. Roles and Responsibilities

The school as a whole has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.

The headteacher of the school holds overall responsibility for this policy and for ensuring it is implemented correctly.

The headteacher is responsible for the management of records at each school in the trust

The Data Protection Officer, DPO, is responsible for promoting compliance with this policy and reviewing it, in conjunction with the CEO and headteachers.

The headteacher is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy, and are disposed of correctly.

All staff members are responsible for ensuring that any records for which they are responsible for (including emails) are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy

The DPO is responsible for monitoring the school's compliance with this policy.

3. Management of pupil records

Pupil records are specific documents that are either contained in 'brown' folders or electronic versions on the schools MIS systems. They are used throughout a pupil's time in the education system – they are passed to each school that a pupil attends and includes all personal information relating to them, e.g. date of birth, home address, as well as their progress and achievement.

The following information is stored on the front of a pupil record, and will be easily accessible:

- Forename, surname, and date of birth
- Unique pupil number
- Note of the date when the file was opened
- Note of the date when the file was closed, if appropriate

The following information is stored securely on the schools MIS system, and will be easily accessible:

- Any preferred names
- Position in their family, e.g. eldest sibling
- Emergency contact details and the name of the pupil's doctor
- Any allergies or other medical conditions that are important to be aware of
- Names of people with parental responsibility, including their home address(es) and telephone number(s)
- Name of the school, admission number, the date of admission and the date of leaving, where appropriate
- Any other agency involvement, e.g. speech and language therapist
- Reference to any other linked files

The following information is stored in a pupil record, and will be easily accessible:

- Admissions form
- Details of any SEND
- If the pupil has attended an early years setting, the record of transfer
- Data collection or data checking form
- Annual written reports to parents
- National curriculum and agreed syllabus record sheets
- Notes relating to major incidents and accidents involving the pupil

- Any information about an education and healthcare (EHC) plan and support offered in relation to the EHC plan
- Medical information relevant to the pupil's on-going education and behaviour
- Any notes indicating child protection disclosures and reports are held
- Any information relating to exclusions
- Any correspondence with parents or external agencies relating to major issues, e.g. mental health
- Notes indicating that records of complaints made by parents or the pupil are held
- Examination results – pupil copy
- SATs results

The following information is subject to shorter retention periods and, therefore, will be stored separately in a personal file for the pupil in the school office or securely on the school server:

- Attendance registers and information
- Absence notes and correspondence
- Parental and, where appropriate, pupil consent forms for educational visits, photographs and videos, etc.
- Accident forms – forms about major accidents will be recorded on the pupil record
- Consent to administer medication and administration records
- Copies of pupil birth certificates, passports etc.
- Correspondence with parents about minor issues, e.g. behaviour
- Pupil work
- Previous data collection forms that have been superseded

Hard copies of disclosures and reports relating to child protection are stored in a sealed envelope, in a securely locked filing cabinet in the Designated Safeguarding Lead's office – a note indicating this is marked on the pupil's file.

Hard copies of complaints made by parents or pupils are stored in a file in the School Business Manager's/headteacher's office – a note indicating this is marked on the pupil's file.

Actual copies of accident and incident information are stored separately on the school's management information system and held in line with the retention periods outlined in this policy – a note indicating this is marked on the pupil's file. An additional copy may be placed in the pupil's file in the event of a major accident or incident.

The school will ensure that no pupil records are altered or amended before transferring them to the next school that the pupil will attend.

The only exception to the above is if any records placed on the pupil's file have a shorter retention period and may need to be removed. In such cases, the member of staff responsible for disposing records, will remove these records – this will be monitored by the DPO.

Electronic records relating to a pupil's record will also be transferred to the pupils' next school.

Primary Schools The school will not keep any copies of information stored within a pupil's record, unless there is ongoing legal action at the time during which the pupil leaves the school. The responsibility for these records will then transfer to the next school that the pupil attends.

Secondary Schools If any pupil attends the school until statutory school leaving age, the school will keep the pupil's records until the pupil reaches the age of 25 years.

The school will, wherever possible, avoid sending a pupil record by post. Where a pupil record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The school it is sent to is required to sign a copy of the list to indicate that they have received the files and return this to the school.

4. Retention of pupil records and other pupil-related information

10. Retention of emails

Group email addresses will have an assigned member of staff who takes responsibility for managing the account and ensuring the correct disposal of all sent and received emails. All staff members with an email account will be responsible for managing their inbox.

Emails can act as evidence of the school's activities, i.e. in business and fulfilling statutory duties, so all **relevant** emails, e.g. invoices, will be retained for at least 12 months. Invoices received and sent in emails will be attached to the finance system and retained in accordance with Section 8 of this policy.

Staff members will be aware that the emails they send could be required to fulfil a SAR or freedom of information (FOI) request. Emails will be drafted carefully, and staff members will review the content before sending.

Individuals, including children, have the right to submit a SAR to gain access to their personal data to verify the lawfulness of the processing – this includes accessing emails.

All SARs will be handled in accordance with the school's Data Protection Policy. FOI requests will be handled in accordance with the school's Freedom of Information Policy.

Where an SAR has been made electronically, the information will be provided in a commonly used electronic format. All requests will be responded to without delay and at the latest, within one month of receipt.

If a request is manifestly unfounded, excessive or repetitive, a fee will be charged. All fees will be based on the administrative cost of providing the information.

Where a request is manifestly unfounded or excessive, the school holds the right to refuse to respond to the request. The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the supervisory authority and to a judicial remedy, within one month of the refusal.

Staff members will discuss any queries regarding email retention with the Headteacher.

11. Identifying information

Under the UK GDPR, all individuals have the right to data minimisation and data protection by design and default – as the data controller, the school ensures appropriate measures are in place in order for individuals to exercise this right.

Wherever possible, the school uses pseudonymisation, also known as the 'blurring technique', to reduce risk of identification.

Once an individual has left the school, if identifiers such as names and dates of birth are no longer required, these are removed or less specific personal data is used, e.g. the month of birth rather than specific date – the data is blurred slightly.

Where data is required to be retained over time, e.g. attendance data, the school removes any personal data not required and keeps only the data needed – in this example, the statistics of attendance rather than personal information.

12. Storing and protecting information

The Headteacher and DPO will ensure that a risk analysis is undertaken to identify which records are vital to school management and these records will be stored in the most secure manner.

The Headteacher will ensure that the school conduct a back-up of information on a termly basis to ensure that all data can still be accessed in the event of a security breach, e.g. a virus, and prevent any loss or theft of data.

Where possible, backed-up information will be stored off the school premises, using a central back-up cloud service. The Technical Manager will ensure that the location of the cloud storage and the security offered is appropriate for the information and records stored on it.

Confidential paper records are kept in a locked filing cabinet, drawer or safe, with restricted access.

Confidential paper records are not left unattended or in clear view when held in a location with general access.

Digital data is coded, encrypted and devices password-protected, both on a local hard drive and on a network drive that is regularly backed-up off-site.

Where data is saved on removable storage or a portable device, the device is kept in a locked and fireproof filing cabinet, drawer or safe when not in use.

Memory sticks are not used to hold personal information unless they are password-protected and fully encrypted.

All electronic devices are password-protected to protect the information on the device in case of theft.

Where possible, the school enables electronic devices to allow the remote blocking or deletion of data in case of theft.

Staff and governors do not use their personal laptops or computers for school purposes.

All members of staff are provided with their own secure login and password.

Emails sent externally containing sensitive or confidential information are password-protected to ensure that only the recipient is able to access the information. The password will be shared with the recipient in a separate email.

Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients.

When sending confidential information by fax, members of staff always check that the recipient is correct before sending.

Where personal information that could be considered private or confidential is taken off the premises, to fulfil the purpose of the data in line with the UK GDPR, either in an electronic or paper format, staff take extra care to follow the same procedures for security, e.g. keeping devices under lock and key. The person taking the information from the school premises accepts full responsibility for the security of the data. If documents that have been taken off the school premises will be left unattended, the staff member will leave the documents in the locked boot of a car or keep them on their person.

Before sharing data, staff always ensure that:

- They have consent from data subjects to share it.
- Adequate security is in place to protect it.
- The data recipient has been outlined in a privacy notice.

All staff members will implement a 'clear desk policy' with respect to documents containing sensitive or personal information. All confidential information will be stored in a securely locked filing cabinet, drawer or safe with restricted access.

The school has data sharing agreements with all data processors and third parties with whom data is shared. These agreements cover information about issues such as access controls and permissions.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The physical security of the school's buildings and storage systems, and access to them, is reviewed termly by the site manager in conjunction with the DPO. If an increased risk in vandalism, burglary or theft is identified, this will be reported to the headteacher and extra measures to secure data storage will be put in place.

The school takes its duties under the UK GDPR seriously and any unauthorised disclosure may result in disciplinary action.

The Technical Manager and DPO is responsible for continuity and recovery measures are in place to ensure the security of protected data. Any damage to or theft of data will be managed in accordance with the Trust's Data and Cyber-security Breach Prevention and Management Plan.

As a result of the UK's exit of the EU data controllers and processors follow the UK GDPR, and the Data Protection Act 2018, where:

- As UK data controllers, they collect, store or process the personal data of individuals residing in the UK.
- As non-UK data controllers, they offer goods or services to, or monitor the behaviour of, UK residents.

Data controllers and processors follow the EU GDPR where:

- They collect, store or process the personal data of individuals residing in the EU.
- As non-EU data controllers, they offer goods or services to, or monitor the behaviour of, EU residents.

13. Accessing information

All schools are transparent with data subjects, the information we hold and how it can be accessed.

All members of staff, parents of registered pupils and other users of the school, e.g. visitors and third-party clubs, are entitled to:

- Know what information the school holds and processes about them or their child and why.
- Understand how to gain access to it.
- Understand how to provide and withdraw consent to information being held.
- Understand what the school is doing to comply with its obligations under the GDPR.

All members of staff, parents of registered pupils and other users of the school and its facilities have the right, under the UK GDPR, to access certain personal data being held about them or their child.

Personal information can be shared with pupils once they are considered to be at an appropriate age and responsible for their own affairs; although, this information can still be shared with parents.

Pupils who are considered to be at an appropriate age to make decisions for themselves are entitled to have their personal information handled in accordance with their rights.

The school will adhere to the provisions outlined in the school's Data Protection Policy when responding to requests seeking access to personal information.

14. Digital continuity statement

Digital data that is retained for longer than six years will be named as part of a digital continuity statement.

The data will be archived to dedicated files on the school's server, which are password-protected – this will be backed-up in accordance with [section 11](#) this policy.

Memory sticks will never be used to store digital data, subject to a digital continuity statement.

The IT technicians will review new and existing storage methods annually and, where appropriate add them to the digital continuity statement.

The following information will be included within the digital continuity statement:

- A statement of purpose and requirements for keeping the records
- The names of the individuals responsible for long term data preservation
- A description of the information assets to be covered by the digital preservation statement
- A description of when the record needs to be captured into the approved file formats
- A description of the appropriate supported file formats for long-term preservation
- A description of the retention of all software specification information and licence information

- A description of how access to the information asset register is to be managed in accordance with the UK GDPR
-

15. Information audit

The school conducts information audits on an annual basis against all information held by the school to evaluate the information the school is holding, receiving and using, and to ensure that this is correctly managed in accordance with the UK GDPR. This includes the following information:

- Paper documents and records
- Electronic documents and records
- Databases
- Microfilm or microfiche
- Sound recordings
- Video and photographic records
- Hybrid files, containing both paper and electronic information
- Knowledge
- Apps and portals

The information audit may be completed in a number of ways, including, but not limited to:

- Interviews with staff members with key responsibilities – to identify information and information flows, etc.
- Questionnaires to key staff members to identify information and information flows, etc.
- A mixture of the above

The Headteacher with the DPO is responsible for completing the information audit. The information audit will include the following:

- The school's data needs
- The information needed to meet those needs
- The format in which data is stored
- How long data needs to be kept for
- Vital records status and any protective marking
- Who is responsible for maintaining the original document

They will consult with staff members involved in the information audit process to ensure that the information is accurate.

Once it has been confirmed that the information is accurate, the DPO will check that all details on the school's Information Asset Register have been recorded.

16. Disposal of data

Where disposal of information is outlined as standard disposal, this will be recycled appropriate to the form of the information, e.g. paper recycling, electronic recycling.

Where disposal of information is outlined as secure disposal, this will be shredded or pulped and electronic information will be scrubbed clean and, where possible, cut. The DPO will check all files that have been destroyed.

Where the disposal action is indicated as reviewed before it is disposed, the DPO will review the information against its administrative value – if the information should be kept for administrative value, the DPO will keep a record of this.

If, after the review, it is determined that the data should be disposed of, it will be destroyed in accordance with the disposal action outlined in this policy.

Where information has been kept for administrative purposes, the DPO will review the information again after three years and conduct the same process. If it needs to be destroyed, it will be destroyed in accordance with the disposal action outlined in this policy. If any information is kept, the information will be reviewed every three subsequent years.

Where information must be kept permanently, this information is exempt from the normal review procedures

Records and information that might be of relevant to the Independent Inquiry into Child Sexual Abuse (IICSA) will not be disposed of or destroyed.

17. Monitoring and review

This policy will be reviewed every 3 years.

Any changes made to this policy will be communicated to all members of staff.
